MENTEE: YOUR GOALS FOR THIS YEAR

Think about where you want to be professionally 12 months from now. Be specific.

Goal 1

What is one professional skill you want to develop or strengthen?

Goal 2

What is one career milestone you want to reach or move closer to?

Goal 3

What is one relationship or network gap you want to address?

What does success look like for you at the end of this program?

Describe in your own words what a successful mentorship year would look like.

MENTOR: WHAT YOU'RE BRINGING

Help your mentee understand your background and how you can best support them.

What are the 2–3 areas where you have the most to offer as a mentor?

Think about technical expertise, career navigation, relationships, or lived experience.

What was the most important thing someone did for you early in your career?

This often reveals what you most naturally give to others.

What would you do differently if you were starting your career today?

Honest reflections here are often the most valuable.

What are the limits of your expertise — where should your mentee seek additional input?

Great mentors know what they don't know.

SHARED AGREEMENTS

Fill this out together. This is your informal partnership agreement.

We agree to meet:

How often, how long, and in what format?

We agree to communicate between meetings by:

Email, text, LinkedIn, etc. — and how quickly you'll respond.

If something isn't working, we agree to:

How will you raise a concern with each other? With the committee?

The one thing we each commit to doing differently as a result of this program:

Mentor Signature: _____ **Date:**

Mentee Signature: _____ **Date:**
